NEW FEATURE

Set Target Recovery Rate for the Project (optional)

Target Recovery Rate 65%

This tool is great for projects that want to set the recovery bar even higher. Green Halo automatically defaults to jurisdictional minimum requirements to comply with local ordinances. With this feature, projects attempting to qualify for LEED points or meet company recovery policies may now set higher target recovery rates. This function is completely optional and will not affect or override any local ordinance which takes precedence.

Materials List

* Material does not count towards Recycling Totals

Materials	Reuse	Recycle	Dispose
<p>Mixed C & D - Select Mixed C&D if you are commingling multiple non-hazardous materials into one bin, box, or truck. Note: Commingling of multiple materials to be processed at registered facilities does not guarantee you will meet the recovery requirements. To ensure you comply with this jurisdiction's recovery requirements it's highly recommended that recyclable and/or reusable materials be source separated.</p>			
<p>Mixed C & D Debris (Mixed debris that is not source separated, but can be recycled must be brought to an authorized registered facility.)</p>	N/A	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Source Separated Materials - Please identify any recyclable materials you will separate on-site for recycling. Note: Separating any of the recyclable materials listed below from your Mixed C&D as clean materials will increase your recycling rate and your chances of complying with this jurisdiction's recovery requirements.</p>			
<p>Alternate Daily Cover (ADC) (material placed on the surface of the active face of a municipal solid waste landfill at the end of each operating day to control vectors, fires, odors, blowing litter, and scavenging)</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
