BLD25-3186	Awaiting Applicant Response	Building Permit With Plan Check	6/2/2025		11201 Main St Penngrove [PEN]	Deck / Gable Foundation & Framing Repair. As per structural engineer's report: Our office visited the Bright Skies Montessori School on March 17, 2025 to observe the framing and foundation of the front porch where the porch roof posts are visibly out of plumb. It is my recommendation that new pier footings be provided at the locations of the point loads, as shown on the attached Foundation Repair plan.  When the foundation work is being done, the posts and beams at the front porch should be exposed from architectural finishes and observed to determine if they are structurally sound. If they have decay causing loss of section, they should be replaced the the 6x beams and posts shown on the attached Roof Framing Plan, and connected using the hardware specified on the plans.	047-181-046	\$0.00	\$0.00	06/01/2025 - 06/30/2025

BLD25-3725	Awaiting Applicant Response	Building Permit With Plan Check	6/23/2025		22205 River Rd Geyserville [GEY]	The tower is an existing structure with the intended purpose of acting as an interactive art piece. The Oliver Ranch property hosts art tours onsite for attendees to experience multiple large-scale art installations the Ranch has to offer. As part of the tours, attendees will be guided through the tower using the two proposed egress points and the proposed accessible path through the tower. There is a shallow 18" reflecting pool at the bottom of the tower, which the accessible path will cross over. The proposed path design includes edge protection so there is minimal risk of attendees falling into the reflecting pool. The tour guides will supervise attendees while they walk through the tower to ensure that no other part of the tower is accessed and that attendees promptly walk through the tower.	141-190-088	\$0.00	\$0.00	06/01/2025 - 06/30/2025

SEP25-0168	Plan Check Comments Sent	Septic Permit	6/4/2025		925 Martin Ln Twin Hills [TWI]	CONSTRUCTION NOTES:  1) Distribution boxes were uncovered by a licensed septic pumper and all boxes were inundated with redwood roots. There is a row of redwood trees very close to the #1 leach line. Owner is pumping the septic tank frequently to avoid breakout. Sewage in the riser is above the top of the septic tank. 2) Abandon #1 leach line to create more distance from the redwood trees to the leach field. 3) Remove rock and pipe from leach lines #2, #3 and #4 and replace in kind. Leach lines will maintain existing dimensions. Rock and pipe will be disposed of at an appropriate landfill. 4) Install 100' new leach line matching the existing dimensions and rock depth of the existing leach lines. (See detail) 5) REHS must be notified at least 24 hours in advance of the desired inspection. No portion of the OWTS may be covered until it is inspected by the permit authority staff or the permit authority staff has authorized coverage prior to inspection.	061-180-024	\$920.22	\$0.00	06/01/2025 - 06/30/2025

WEL25-0203	Pre-Issue/Payment Due	Well Permit	6/10/2025		1265 Oak Creek Dr Agua Caliente [AGU]	<p>Permit for a well destruct for old well. DATE: 6/10/2025</p> <p>ESTIMATE SUBMITTED TO: Donald &amp; Carole McInain PO BOX 1263   707-938-2154 Sonoma, CA 95476   djmclain@pacbell.net</p> <p>JOB LOCATION: 1265 Oak Creek Dr, Sonoma, CA 05476</p> <p>WE HEREBY SUBMIT SPECIFICATIONS AND ESTIMATES FOR: Proposal For Domestic Well Destruction. First Arolo Pump &amp; Well will file for a Well Destruction Permit with Sonoma County Environmental Health department. Once permit is approved, Arolo will schedule to perform Well Destruct. Arolo will perform well destruction per plan approved process as per permit. Arolo will start by pulling existing well pump, drop pipe, wire, couplings and check valves out of old well. Load into trailer. Dig around existing well casing down 5' from grade. Demo concrete seal. Cut steel casing down 4' leaving 1' of steel casing. Arolo will set up Rig and knife perforating/ripping tool. Send tool down on galv pipe. Rip casing from 30' to top of casing at 4' under grade. Pull galv pipe and tooling out of existing casing. Send 6yard of pea gravel down well and fill old casing from bottom to 40 below grade stopping the gravel. Set up Pour concrete down till well casing is filled up to top of casing and mushroom over. Arolo will call for inspection and clean-up site. Back fill hole around casing and level off. Arolo will provide proper paper work and documents for project.</p> <p>The well destruction will be documented in a short letter report to the NCRWCB and Sonoma County Environmental Health, and a California Department of Water Resources (DWR) Well Completion Report will be prepared and submitted to the DWR and Sonoma County.</p>	133-130-028	\$679.72	\$0.00	06/01/2025 - 06/30/2025
